color is one of cinema's most alluring formal systems building on a range of artistic traditions that orchestrate visual cues to tell stories stage ideas and elicit feelings but what if color is not or not only a formal system but instead a linguistic effect emerging from the slipstream of our talk and embodiment in a world this book develops a compelling framework from which to understand the mobility of color in art and mind where color impressions are seen through and even governed by patterns of ordinary language use schemata memories and narrative edward branigan draws on the work of ludwig wittgenstein and other philosophers who struggle valiantly with problems of color aesthetics contemporary theories of film and narrative and art historical models of analysis examples of a variety of media from american pop art to contemporary european cinema illustrate a theory based on a spectator's present time tracking of

temporal patterns that are firmly entwined with language use and social intelligence

colour art and empire explores the entanglements of visual culture enchanted technologies waste revolution resistance and otherness the materiality of colour offers a critical and timely force field for approaching afresh debates on colonialism this book analyses the formation of colour and politics as qualitative overspill colour can be viewed both as central and supplemental to early photography the totem alchemy tantra and mysticism from the eighteenth century austrian empress maria theresa to rabindranath tagore and gandhi to 1970s bollywood colour makes us adjust our take on the politics of the human sensorium as defamiliarising and disorienting the four chapters conjecture how european indian and papua new guinean artists writers scientists activists anthropologists or their subjects sought to negotiate the highly problematic stasis of colour in the repainting of modernity specifically the thesis of this book traces europeans admiration and emulation of what they termed indian colour to its gradual denigration and the emergence of a space of exception this space of exception pitted industrial colours against the colonial desire for a massive workforce whose slave like exploitation ignited riots against the production of pigments most notably indigo feared or derided the figure of the vernacular dyer constituted a force capable of dismantling the imperial machinations of colour colour thus wreaks havoc with western expectations of biological determinism objectivity and eugenics beyond the cracks of such discursive practice colour becomes a sentient and nomadic retort to be pitted against a perceived colonial hegemony the ideological reinvention of colour as a resource for independence struggles make it fundamental to multivalent genealogies of artistic and political action and their relevance to the present

one of the most enduring and pervasive myths about modernist architecture is that it was white pure white walls both inside and out yet nothing could be further from the truth the color of modernism explodes this myth of whiteness by offering a riot of color in modern architectural treatises polemics and buildings focusing on germany in the early 20th century one of modernism s most foundational and influential periods the book examines the different scientific and artistic color theories that were advanced by members of the german avant garde from bruno taut to walter gropius to hans scharoun german color theory went on to have a profound influence on the modern movement and germany serves as the key case study for an international phenomenon that encompassed modern architects worldwide from le corbusier and alvar aalto to berthold lubetkin and lina bo bardi supported by accessible introductions to the development of color theory in philosophy science and the arts the book uses the german case to explore the new ways in which color was used in architecture and urban design turning attention to an important yet overlooked aspect of the period much more than a mere correction to the historical record the book leads the reader on an adventure into the color filled worlds of psychology the paranormal theories of sensory perception and pleasure showing how each in turn influenced the modern movement the color of modernism will fundamentally change the way the early modernist period is seen and discussed
